EQUINE PROFILE

GHOST

Breed: Arab x Paint

Sex: Gelding

Approximate Birth Year: 2015

Height: 14 Hands

Horsenality: Right Brain Introvert

Spirit Level: Low-Medium

Training Status: Groundwork – Intermediate

Background: Ghost was a part of an eight horse seizure in Central Wisconsin in the fall of 2018. One horse had perished due to starvation, and the rest were in very poor condition. Ghost's body score was a 1.5. At three years old, he was still intact and had little to no handling.

General Observations: Ghost took to training very well. We were able to have him gelded as soon as the court case was concluded. He's co-operative, willing and brave. His weight is excellent. He's friendly and curious. Due to his early food deprivation, he will remain on the small size, but could be ridden by a child or small adult. He had one incident of food aggression toward another horse, but is now doing fine in a herd setting of mares and geldings.
